Crisis Preparedness:

Parents and School Emergencies

Introduction

The safety and security of our students and staff are top priorities for CCNS. This booklet explains some of the procedures that have been planned and practiced in the event of an emergency at CCNS.

School administrators work closely with police, fire, emergency services and public health to ensure our Safety & Crisis Manual reflects appropriate practices and CCNS is prepared for emergencies.

Our comprehensive emergency plan addresses a multitude of potential incidents, not because we expect them to occur, but because we want to be prepared in case they do. For security reason, specific details are not made available to the public,; however, parents and students have a vital role and it is important that you know what to do in an emergency. Please review information in this booklet, in advance of the school year, to make sure you and your child understand the emergency procedures.

What is an Emergency?

An emergency is any unexpected incident that could possible put your child's safety at risk. It could be anything from a disruption in utilities to a terrorist activity and could affect one child, our school, or the entire area. The Director, administrator and sometimes emergency responders, will evaluate the seriousness of each situation and determine the best action to respond quickly, safely and appropriately.

Advance planning and preparation can minimize the risks in any emergency situation. This brochure offers guidelines for preparedness, what parents should do, and what the school will do in the event of an emergency. Communication procedures and student release procedures are also outlined.

Preparedness – What Should Parents do to Prepare for an Emergency?

Parents have an invaluable role in preparing their children for emergencies. Listed below are some of the ways you can help them understand that if an emergency occurs at school, teachers and school officials are trained to handle the situation. Reassure them you will be contacted by the school and you will be reunited with them as soon as it is safe to do so.

- Be sure emergency contact information is current and correct. Contact CCNS immediately whenever your work, home or cell number changes.
- Keep the office administrator informed of any medical conditions or physical limitations your child may have or medications your child may be taking. Provide the necessary medical supplies and medication for daily use and an additional supply to carry your child through an emergency. If there are questions about the appropriate amount of medication or supplies, please consult your child's physician.
- Identify who is authorized to pick up your child if you are not able to respond. Make sure their contact information is current and correct. Please be on the emergency contact list. Discuss this information with your child.
- If your child asks questions about emergency situations talk with your child about the importance of remaining calm and following instructions in the event of an emergency. If an emergency occurs while they are at school, their teacher will provide them with appropriate instructions and information.
- Let your child know they could be moved to another location until you can pick them up. Explain the term "evacuation" at the age appropriate level, so they are not afraid of being evacuated from their school.
- Establishing a family preparedness plan including a communications plan at home. This will enable you to communicate with all family members during an emergency.
- In case of an emergency in which your child cannot go to their home, make sure there is another place he or she can go and be safe while waiting for a family member to pick them up.

What Will School do in the Event of an Emergency?

What we do in an emergency depends on the situation and the specifics of the incident. We will make every attempt to ensure that instruction continues, even when it becomes necessary to lock down the school. Depending on the severity of the threat or emergency, additional measures may be taken, including sheltering-in-place, evacuating students from the building or closing the school early.

If emergency responders are called to the scene, we will work with them in a unified command to determine which plan should be implemented. School emergency plans vary from school to school, based on school size, building layout and other relevant factors, and are initiated depending on the events unfolding at the time of the incident. While we have a pre-established plan of action, evacuation sites, and family reunification plans, these plans must remain flexible as conditions change. Parents will be informed as soon as we have done everything we can to ensure the safety of students and when it becomes possible to provide accurate and helpful information.

Protective Actions the School May Use

CCNS has an emergency preparedness plan involving a number of possible actions. The response varies, depending on the conditions and the situation, and is determined by the Director and Henrico County Emergency team. It is important for parents to understand that if a critical incident occurs, students will be dismissed to parents only when danger has passed.

CCNS may use the following protective actions:

- **Lockdown** – A lockdown may be used because of an event inside the building or because something is happening outside and police have determined it is best to make sure the school is protected. The purpose of a lockdown is to restrict the movement of staff and students, and to fully secure the building. During a lockdown all interior and exterior doors are locked. No one is permitted to enter or exit the building until school officials, often working in conjunction with police, have determined it is safe to do so. All staff, students and visitors are accounted for and instruction continues. The length of the period of lockdown is based on the situation at hand, and could be a few minutes or hours. It is possible that a lockdown might involve detailing students beyond the regular school day, it is never our intention to hold students unnecessarily, and we will not do so except to ensure their safety. Conditions will return to normal as soon as it is safe to do so.
Parents may or may not be notified when the school goes into lockdown. There are times when the school goes into lockdown for drills or training, or for an external event that does not involve the school. The Director or school Administrator will determine when the event is significant enough to notify parents.
- **Shelter-in-place** – this protective action is considered when an event takes place outside of the school and officials determine the safest course of action is to keep students and staff inside the school until the external event is handled. Some examples could be a weather situation, hazardous materials release, or a situation unfolding in the community into which children should not be released. Students who are outside are moved inside. If a shelter-in-place is called for and may extend beyond the school day, parents will be advised
- **Evacuation** – If it is unsafe for students and staff to remain inside the building, the school will be evacuated. Students and staff may remain on school grounds until the building is safe to re-enter or be relocated to a safe location off school property, depending on a variety of circumstances. In the event of an off-campus evacuation, school administrators will work with emergency officials to move students to a safe location. From there the students will wait for family members to pick them up from the reunification site. In either event, the Director or school administrator will make sure parents are notified.

- **Emergency School Closing** – this procedure will take place when the Director or school administrator will determine students are safer at home than at school. This most often occurs due to loss of utilities or a weather emergency. Parents will be notified that school will be closing.
- **Off-Site Family Reunification** – Students are moved off-site when school officials determine students and staff should not re-enter the building until it is rendered safe. Several off-site locations are determined in advance, but are not shared with parents until an incident unfolds. Police and school officials choose the best reunification site at the time of the incident depending on the circumstances of the emergency. Parents will be notified of the family reunification site as soon as it is tactically appropriate to do so. Our main priorities in an off-site evacuation are student safety and accountability. We want to make sure students are released to authorized individuals and a sign-out procedure will be initiated.
In the event of an off-site school evacuation, parents will be provided information as to where the reunification site is located. Parents or authorized adults will be required to show photo identification in order to pick up a child. The process may take some time because we want to make sure reunification is made with authorized individuals.

What Should Parents do in the Event of an Emergency?

The most helpful parental responses to a school emergency are to remain clam and wait for accurate information to be sent to the number listed on your child's emergency contact. We understand it is a natural instinct for parents to want to rush to their child. It is important for you to understand that, during such an event, CCNS and emergency responders have made preparations to deal with these incidents. Your cooperation in an emergency is essential to the safe and swift resolution of the incident.

Please do not call the school. It is essential to keep phone lines open so we can make outgoing emergency calls. If students are ill or injured, the parents of those students will be notified first. Please do not go to CCNS. As we have learned from past school emergencies, one of our greatest challenges is how to manage an onslaught of parents and concerned citizens rushing to the scene to "help." By doing so, parents can inadvertently create traffic jams that may block emergency responders from getting to the scene or leaving if necessary to transport injured staff or students to emergency medical facilities.

- Remain calm, follow procedures, and cooperate with school and public safety officials.
- Remain close to the phone listed as your emergency contact number.
- Tune I to radio or television stations designated to carry emergency information.
- Understand that emergency pickup procedures are different than routine pickup procedures. In the event you are notified to pick up your child at school or at the designated family reunification site, bring a photo identification card. If you must send someone else to pick up your child, be sure it is someone who is listed on school records as an authorized individual and they are in possession of a photo ID. Your child
-

Canterbury Community Nursery School Emergency Crisis Preparedness

will not be released to anyone who is unauthorized or who cannot provide appropriate identification.

- Follow emergency procedures. If you are asked to pick up your child, you will be asked to follow the check out procedure established for emergencies. The reunification system was developed to ensure the safety of students and it is vital that the procedure be followed.
- Remain in designated areas at the family reunification site.
- Be patient. It is essential that the family reunification procedure be carried out in an orderly manner so we can protect and account for all our students.

Emergency communications – How Will Parents be Notified if an Incident Occurs at School?

Our first priority is to ensure all students are safe, accounted for, and under adult supervision. As soon as it is possible to do so, the Director of office administrator will communicate information to parents and the community. We have a variety of media available to parents which will be updated, as needed, with the most complete and accurate information available.

1. Twitter: @ccns78
2. CCNS Website (www.canterburynurseryschool.org)
- 3.

In the event of a significant emergency, parents are encouraged to tune in to one of the following local television stations to follow the event as it unfolds:

1. Channel 6 – CBS
2. Channel 8 – ABC
3. Channel 12 – NBC

Recovery After a Crisis

We understand that a traumatic event in a school or in the community can have an emotional impact on staff and students. CCNS has the contact information for counselors, social workers, and psychologists who can respond after a critical incident to provide assistance. If there is a chance a critical incident makes an emotional impact upon staff or students, we will bring in the necessary people to help those affected emotionally with the aftermath of the incident.

For Additional Information

- For additional information please contact the Director or school administrator.
- An excellent website on emergency readiness is www.ready.gov.
